DETAILED ACTION

Election/Restrictions

Claims 9, 35, and 38-40 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **with** traverse in Paper No. 4.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. **Claims 1-8 and 10-34**, drawn to 604, classified in class 604, subclass 96.01.
- II. **Claims 36-37**, drawn to a kit, classified in class 206, subclass 363.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, the different inventions have different functions. Kits are used for the packaging and marketing of surgical products, and therefore, are not use together with the surgical instruments to perform surgical procedures. For this particular reason, the U.S. Patent and Trademark Office classifies "Kits" outside the surgical arts in Class 206.

Art Unit: 3763

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
